| <u> </u> | Question No. (2): (30 marks): | | | | |

Question No. (2): (30 marks):

How to improve customer feetback and satisifaction

To Improving customer feetback and satisifaction, making an effective marketing plan is required

| Situation Analysis | | | | |
|-----------------------------|--|--|--|--|
| V | | | | |
| Marketing Strategy | | | | |
| V | | | | |
| Marketing Mix Decisions | | | | |
| V | | | | |
| Implementation & Control | | | | |

• The situation analysis thus can be viewed in terms an analysis of the external environment and an internal analysis of the organization. It serves as the basis for identifying opportunities to satisfy unfulfilled

customer needs. In addition to identifying the customer needs, the firm must understand its own capabilities and the environment in which it is operating.

- There are several frameworks that can be used to add structure to the situation analysis: 5c
- Company / organization, customers, competitors, collaborators, climate)
- Company/organization represents the internal situation; the other four cover aspects of the external situation
- Or SWOT
- strengths, weaknesses, opportunities, and threats for the internal and external situation.

| Factors | Positive factors | Negative factors | |
|----------|------------------------|-----------------------|--|
| | Strengths | Weaknesses | |
| Internal | | | |
| factors | e.g. experience in the | e.g. location of | |
| | industry | organization business | |
| | Opportunities | Threats | |
| External | 11 | | |
| factors | e.g. new export | e.g. new competitor | |
| | opportunity available | entering the market | |

•

2- marketing strategy

- <u>The marketing strategy then involves:</u>
- <u>Segmentation</u>
- Targeting (<u>target market</u> selection)
- Positioning the product or service within the target market

Value proposition to the target market

• 3- MARKETING MIX DECISION

- In this process the marketing plane developed and a product has been produce.
- Designing and implementation a marking program are expensive project and require personnel with expertise in marketing.
 The evaluation and control of marketing it involves in the following:
- *Goal and objectives.
- *Measuring planned and good results
- * Different between planned and results.
 - 4 Implementation and Control -
- In this process the marketing plane developed and a product has been produce.
- Designing and implementation a marking program are expensive project and require personnel with expertise in marketing.
 The evaluation and control of marketing it involves in the following:
